In summer 2021, the FIAT base vehicle will be replaced from the DUCATO 7 to the DUCATO 8. Unfortunately, it is not possible for organisational reasons to print the photos of the update at a later date. Therefore, please note that some illustrations of the DUCATO do not correspond to the current (new) series status.

WHAT CONNECTS US & BRINGS US TOGETHER TO ACHIEVE OUR GOAL

We are pleased that we may accompany you on your journey. That we can give your holiday destinations and dreams a home. And that with KNAUS you have a companion at almost all places in the world and on the most diverse holiday routes that gives you the good feeling of having arrived. With our products, enjoy independence, flexibility and individuality in the safest and most beautiful form of travel. Every KNAUS vehicle is the result of a strong community. Together with you, our highly motivated employees, professional partners and suppliers as well as a strong dealer and service network, we create freedom that inspires with each of our products.

Go on a journey with us! And discover your very personal freedom! Find your perfect travel companion here and find out what makes KNAUS vehicles stand out.

KEY CUV

Notes on original KNAUS components and further online information can be found with the following symbols:

Transverse bed variants

Single bed variants

Additional bed variants

Others

* Please note that the number of beds indicated may include beds for both adults and children. The beds do not have the same dimensions. We therefore recommend that you consult your KNAUS dealer about the dimensions of the beds provided in the vehicle so that you can decide whether they are suitable for the occupancy (adults/children) you intend to have. All information partly includes special features, which are available at additional cost.

Your freedom is our philosophy. With boundless passion, we at KNAUS, have been creating unforgettable holiday moments since 1960. Backed by our experience and **the courage to blaze new trails**, we combine the familiar with the new. For our production, we rely on **Lower Bavarian craftsmanship**, and when developing new vehicles, we employ **cutting-edge design and production technologies**. This combination of proven principles and innovative ideas makes us one of the industry's most successful brands. **And the #Number 1 for our customers.**

There is a strong team behind every KNAUS. Many of our employees are passionate KNAUS drivers & holidaymakers themselves. Their numerous personal experiences and those of our customers always flow into the development and optimisation of our products. In addition, each of our vehicles incorporates the precision of passionate employees who work in our ultra-modern production facilities, as well as components of our reliable partners and the knowledge and experience from over 60 years of caravanning.

State-of-the-art production. Our main production and development site is located in Jandelsbrunn in Lower Bavaria. This is where our teams design new vehicles, test innovative technologies and create revolutionary novelties again and again which we definitely see as a source of inspiration for the caravanning industry. When the prototype meets our high standards and has passed all tests, series production begins. For this purpose, we operate two further ultra-modern production sites in Mottgers, Hesse, and Nagyoroszi, Hungary. Advanced production lines enable us to have a particularly efficient process flow in order to be able to react flexibly to new technologies and their production processes. This efficiency enables us, among other things, to offer you a unique price-performance ratio and to realise the dream of self-determined travel happiness for everyone.

With passion at work. We invest continuously in our sites and, above all, in our group-wide workforce of about 3,000 employees, many of whom have been with us for over 30 years and more. Our production lines are designed to be adapted to the individual needs of our employees. For us, people are the focus of attention. Trust, respect and a strong team spirit are the hallmarks of our team. As a top employer, we are always happy to welcome new "holidaymakers" and provide training in various professions.

A moving success story: our attractive 60 YEARS anniversary special models offer numerous equipment features at the best price

Our experience. We know where we come from and have never forgotten the vision with which Helmut Knaus founded Knaus KG in 1960: With KNAUS vehicles, the dream of free, detached holiday happiness should come true for everyone. This principle still applies today, just as it did 60 years ago, and guides every one of our decisions and product developments. On the occasion of the 100th birthday of Helmut Knaus and at the same time the 60th anniversary of the KNAUS brand, we can look back proudly and above all thank those who have always accompanied us: You, our loyal customers! Thank you for your trust! To find out more about our history, visit www.knaus.com/history

OUR CUVS – AS GREAT AS YOUR HOLIDAY PLANS

Everyone travels in their own way. That's why our CUVs provide maximum variety and you can find the perfect model for your holiday dreams. With different body heights and vehicle lengths, adventure couples are just as happy as the extended family.

Vehicle lengths

MAXI CHASSIS: FOR ALL WHO HAVE BIG PLANS

The optional Maxi Chassis provides you with optimised vehicle load capacities and an extended towing capacity. In order to distribute the extra weight optimally to the CUV we adjusted the front and rear axle loads and installed larger 16" wheels and reinforced brake systems. In particular the large and internally ventilated brake discs ensure optimum driving properties when driving uphill.

Vehicle lengths

Perfectly built from scratch. A strong foundation forms the basis for every home. It's the same with our vehicles. That's why we build on the right chassis from Fiat and MAN. We always keep in mind what is important in the individual series, who they are made for and how we can get the best out of them for being on the road and arriving.

All options & information on the KNAUS base vehicles can be found at configurator.knaus.com

1. SOPHISTICATED EXTERIOR DESIGN¹

When designing the exterior, we always make sure to harmoniously integrate the design language of the base vehicle into our KNAUS moulded parts. Striking front design and a concise radiator grille make a strong statement.

2. AUTOMOTIVE INTERIOR¹

A clearly structured cockpit is essential for maintaining an overview while driving. That's why all the important elements are arranged here so that they can be reached quickly and conveniently. Practical storage compartments and intuitive operating concepts make the cab a perfectly equipped driver's workplace. On MAN TGE vehicles the standard multifunction display "Plus" provides an optimum overview. The monochrome TFT display shows current information such as the outside temperature, remaining range and average consumption. In addition, the driver assistance systems can be conveniently operated via this display. If the worst comes to the worst, standard driver and passenger airbags¹ provide protection.

3. EXCELLENT DRIVING COMFORT¹

Optimised tracking, reduced rolling movements and optimised handling in bends: this is what the 2-channel air suspension² on the rear axle ensures. This not only increases driving comfort, but also safety. For long journeys, the automatic transmission³ is recommended - a real comfort plus, as is the electronic parking brake^{2,3}. The electromechanical power steering¹ provides a clear plus in driving pleasure as well as convenient parking and unparking. The steering is automatically adjusted to the speed. For maximum driving safety, all vehicles have ABS, ESP & Hill Holder as standard.

4. INTELLIGENT ASSISTANCE SYSTEMS²

Drowsiness detection³, traffic sign recognition³, electronic immobiliser¹, ... The list of modern driver assistance systems is long. Many of them are already standard equipment on our vehicles, such as the emergency brake assistant on MAN TGE vehicles. With further optional systems, you can tailor your KNAUS precisely to your needs.

¹Across all series ²Dependent on model ³Optional

BOXSTAR

from page 16

You will feel really comfortable because here everything has its fixed place here. When you pack your CUV, things must be perfectly organised. That's why you prefer fixed beds and spacious built-in furniture.

There is nothing more comfortable than a cosy fixed bed waiting for you

BOXLIFE

In summer 2021, the FIAT base vehicle will be replaced from the DUCATO 7 to the DUCATO 8. Unfortunately, it is not possible for organisational reasons to print the photos of the update at a later date. Therefore, please note that some illustrations of the DUCATO do not correspond to the current (new) series status.

City-suitable companion. Thanks to its compact 5.41 m external length, Mara and Theo can master even narrow alleys effortlessly with the 540 ROAD. And inside, the well-designed layout ensures maximum comfort.

Width and inclination of the bench can be adjusted for more seating and travel comfort

1. Cosy seating area. Due to a flexible, extending table, rotating front seats, and a pull-out bench, there's always a cosy seating area for up to 4 people.

2. Optimum base. Frost monitor, drain valve and heating are located under the bench. Everything is very easily accessible and well organised.

With the well-designed roof and floor design all KNAUS CUVs provide even more headroom in the interior. Perfect for tall people

With the optional 21.5" SMART TV incl. HD tuner, you can continue streaming your favourite series & films even while on holiday.

The floating dinette table enables particularly comfortable access to the seating group without any obstacles such as bothersome table legs. This ensures maximum use of space and living comfort

BOXSTAR 540 ROAD

KITCHEN OVERVIEW

540 ROAD Compact kitchen

Just the way you like it.

The thoughtfully designed kitchenette provides enough space for preparation, enjoyment and storage. This way, cooking is even more fun for Mara.

- 1. Drawers with full-extension slides.** They slide out so far that the can be filled easily right to the very back of the drawer.
- 2. Intelligent design.** The stainless steel sink is recessed into the worktop and provides sufficient space for washing up.
- 3. Optimal lighting.** The LEDs under the cabinets ensure optimal lighting of the work surface. There are two sockets for connecting a kettle, toaster or similar appliances.

BED & BATHROOM OVERVIEW

540 ROAD with compact bathroom*

*Optional open bathroom
More details on our bathrooms, please see [pages 106-107](#).

Refreshed and cleaned up.
The space in the multifunctional compact bathroom is optimally used with innovative details such as the sliding mirror and the rotating toilet.

1. Well thought-out down to the tiniest detail.

This is typical of CUV: spacious compartments and maximum legroom in the toilet area despite the compact vehicle dimensions.

2. Practical storage space.

The ceiling cabinets above the bed offer plenty of room for clothes, books and bits and pieces. LED reading lamps under the cabinets provide pleasant light.

To find out how the furniture modules change when you select the optional open bathroom, please check page 107

Favourite place and holiday scent.

In the BOXSTAR 600 STREET Mara and Theo can simply chill out and enjoy the scent of Provence. The [floating dinette table](#) provides for plenty of space for stretching your legs and being [comfortable](#).

1. High-quality screens. In the seating area and on the longitudinal beds, we have installed breathable and additionally insulating front wall screens. At the same time, these visually integrate the comfort roller blinds of the Seitz S7P frame windows.

2. Variable bench. For more room to move and ergonomic travel, the seat can be adjusted in various directions which can also be used safely in running order.

The optional LED spotlights can be flexibly aligned and turned on and off particularly easily, thanks to the touch function.

Superb legroom: The floating dinette table gives you the chance to stretch your legs without restriction

- 600 LIFETIME XL Compact kitchen

Cooking is done with love here. It's also done with fresh herbs from the Provence. There's plenty of room to prepare, thanks to practical details such as the cover for the sink, which has the same design as the worktop. Not only useful, but also a stylish design element.

- 1. Flexible counter top.** It's no problem when there's more to cut and prepare. Thanks to a hinged extension the counter top can be extended to a maximum.
- 2. Cool device.** With a volume of up to 95 litres, the CUV refrigerators offer extra space and are particularly quiet thanks to night setback.
- 3. 2-flame cooker.** Fast and easy use of hobs thanks to electric ignition.

TRANSVERSE BED BOXSTAR 600 STREET

A new definition of beauty sleep. Mara and Theo sleep really well in the spacious transverse bed, and in addition they enjoy a unique view when they open the rear doors.

- 1. Standard compact bathroom.** Sliding mirror, numerous shelves and optimised legroom ensure maximised benefits.
- 2. Optional open bathroom.** The hand washbasin can be folded out into a large washstand and the passage to the bed is used as space for the spacious shower unit. For more information, please see page 107.

A star for everyone: other BOXSTAR 600 variants. Same vehicle length, same vehicle height, same living comfort. But perfectly matched to the different types of travellers and their needs. With the intelligently designed sleeping area variants it is easy to fall in love. For more information on our XL high-roof models, please start on page 38.

When the children get ready to leave the nest and more privacy is needed the BOXSTAR 600 SOLUTION with rear transverse bed and front lifting bed is the right choice

Young KNAUS families love the practical bunk bed with 4 transverse sleeping areas in the BOXSTAR 600 FAMILY as everyone can lie next to each other and relax together

Perfect for couples who like to spread out a little while sleeping. The comfortable single beds in the BOXSTAR 600 LIFETIME

600 SOLUTION

Alternatively you can choose the optional Vario front lifting bed (194 x 130 cm). More on this from page 102

1. Classic front lifting bed. Up to two additional persons can be accommodated in the comfortable 176 x 130 cm standard lifting bed.

2. Cosy rear transverse bed. The comfortable EvoPore HRC mattresses provide an optimal basis for a good night's sleep.

BOXSTAR 600 SOLUTION

The perfect solution for anyone looking for maximum privacy. The BOXSTAR 600 SOLUTION is equipped with the Classic front lifting bed as standard. The Vario front lifting bed (194 x 130 cm) is available as an option. For more information on the various lifting bed sizes please refer to pages 102-103.

600 FAMILY

1. Sleeping comfort for four. The spacious rear bunk bed provides space for the whole family. The upper transverse bed can be easily reached using a stowable ladder.

2. Optimal use of storage space. You can also use the rear area for more luggage or less passengers by removing the slatted frames.

600 LIFETIME

1. Expandable single beds. The access to the bed can optionally be closed with an additional cushion to create a large reclining area.

2. Comfortable access. To get even more comfortably into the land of dreams, a fixed step provides a particularly easy access to the bed.

With the optional pop-up roof, the BOXSTAR 600 FAMILY offers up to 7 comfortable sleeping places

BOXSTAR 600 FAMILY

Young families love the practical rear bunk bed with four comfortable transverse sleeping areas. This way everyone gets their own permanent place to sleep and parents can be sure that their little adventurers will really come to rest. Well thought-out wardrobes provide sufficient storage space.

Width cm (exterior/interior)	205 / 187
Height cm (exterior/interior)	258 / 190

BOXSTAR 600 LIFETIME

Do you like a lot of space for sleeping? Here you can stretch out, spread out and stand up as you please - all without getting in your partner's way. And with a bed length of up to 200 cm there is not only sufficient space for tall people but also for a lot of luggage in the storage space under the beds.

Length cm	599
Width cm (exterior/interior)	205 / 187
Height cm (exterior/interior)	258 / 190

Configure now on configurator.knaus.com/luk

For friends. For those who like to share. And especially for families: our BOXSTAR 600 XL high-roof models. The high-roof structure with additional GRP roof structure provides a gigantic amount of space with an interior height of up to 238 cm. The high-roof bed can be pushed easily and smoothly into the sleeping position with one hand and provides two separate and particularly comfortable sleeping areas.

Going on a mystery tour with your partner today, tomorrow with your grandchildren, and lending your children the vehicle next week. In addition to the rear transverse bed the BOXSTAR 600 STREET XL has two full-size sleeping places in the high-roof bed.

Perfect for a road trip with friends: spacious rear longitudinal beds and a large high-roof bed make the BOXSTAR 600 LIFETIME XL particularly versatile & therefore the perfect multi-generation vehicle.

The high-roof convinces with its dynamic shape, and its double shell provides optimal insulation values. The well thought-out arrangement of the tank system with its particularly low centre of gravity ensures exceptional optimum vehicle stability.

HIGH-ROOF BED

- 1. Space-saving and smooth-running.** The high-roof bed is particularly easy to retract and extend in a single action. A special mechanism ensures that it engages securely.
- 2. Heavenly sleep.** Dimmable side windows and fully-fledged cold foam mattresses ensure optimal sleeping comfort.

Layouts: BOXSTAR 600 STREET XL, LIFETIME XL

600 STREET XL

1. Gigantic space available. The entire living space gains in height with the high-roof construction. This also improves the sleeping comfort in the rear transverse bed.

2. Safe and easy access. The ladder can be easily hooked on and safely stowed if you don't use it.

600 LIFETIME XL

1. Comfortable longitudinal beds. Absolutely unique in this class: here you can relax in four fully-fledged longitudinal beds.

2. Unique headroom. Even when the high-roof bed is extended there is still a headroom of more than 170 cm (238 cm when retracted).

Two tilting roof windows & the huge panoramic roof as an option provide for a light-flooded interior

The height-adjustable SMART TV comes with you up into the high-roof bed or down for the TV evening in the lounge

BOXSTAR 600 STREET XL

The perfect travel companion for everyone who likes spontaneity. Thanks to the combination of a fixed rear transverse bed and a comfortable high-roof bed there are four comfortable sleeping places. In addition, the spacious storage units provide sufficient space and options to stow the whole luggage.

Length cm	599 cm

At eye level with happiness.

Simply open the sliding door, let the sun in and enjoy the view. This way even housework becomes a pure pleasure.

The wall units & storage compartments above the seating group offer plenty of storage space. Thanks to H3, these are particularly high

Intelligent storage space in the platform floor - ideal for shoes

BOXSTAR 630 FREEWAY

The floor covering made of hard-wearing PVC appears very elegant and even looks fresh after numerous holidays

No bothersome table legs but a rotating table top extension. This is optimal use of space

1. Great feeling of space. With the numerous pull-out and hinged or swivelling extensions, the living space in the BOXSTAR 630 appears even larger and offers you the possibility of creating additional space in all living areas in an instant.

2. Room climate on the platform. Additional ventilators and an optional floor and seat heating ensure an absolute feel-good atmosphere.

A culinary delight. With the high-quality two-burner hob not only Swedish Pannkakor but also German Pfannkuchen, American pancakes, French crêpes, etc. turn out well.

1. Ice-cold CUV technology. The 95-litre compressor refrigerator is equipped with a 12.8-litre freezer and installed at eye level in the kitchen module. Its energy efficient performance and night time noise reduction system do not only have a positive effect on the electricity balance but also ensure a good night's sleep.

2. Extra storage space. For optimum weight distribution, heavy items such as tinned food or drinks can be stowed in the lower compartments in the middle of the vehicle.

KITCHEN OVERVIEW

630 FREEWAY Galley kitchen

Slept well? A question that Mara and Theo have no need to ask. The EvoPore HRC mattress ideally moulds itself to the individual lying position.

1. Optional open bathroom. When choosing the open bathroom the passage to the sleeping area with a variable circular wall is transformed into a spacious shower cubicle and the beds are enlarged by approx. 90 mm within seconds. The washbasin can be converted into a large wash table in just a few easy steps.

2. Very well organised. The bathroom cabinet provides plenty of space for your cosmetics. Special shelf fronts ensure things stay in place whilst you travel.

An additional bed in the rear or a front lifting bed? Why an "or"? Everything is possible here. For more information on the various optional bed variants, please refer to pages 102-103

MAXIMUM FLEXIBILITY

There is no substitute for storage space. Except for even more storage space without having to forgo living comfort. The innovative Vario rear concept offers the best solution in every situation and an incredible loading volume of up to 2,350 litres.

The unique variability is available for all vehicle heights and lengths. Which one suits you?

No more space problems, for even the largest bulk purchase can be conveniently stored in the BOXLIFE. It's a true everyday hero

Everybody aboard! There's space for other travellers and their entire luggage

Not having to do without anything also means being able to conveniently pack even bulky items and large sports equipment

- 1. Flexible bed suspension.** A special mechanism is installed for the rear lifting bed which remains equally resilient at any height thanks to the safety suspension, new guide mechanism and stepless locking function.
- 2. Practical sockets.** Are you taking your e-bikes with you? Then the optionally available electrical outlets are an absolute must-have. You can charge the batteries using sockets or the inverter which is also available as an option.
- 3. Variable sleeping position.** The rear lifting bed can be manually adjusted in several stages depending on what you are planning.

Get more out of your CUV by putting more into it. Only available with the BOXLIFE. When you choose a BOXLIFE you opt for the greatest variability a CUV has to offer. The standard rear lifting bed can be used at different heights and adapted to your individual needs with further options.

1. Storage space series. The highest setting of the rear lifting bed provides maximum storage space e.g. for e-bikes and other luggage.

2. Bed series. Each BOXLIFE is equipped with a rear lifting bed with two-layer cold foam mattresses.

When you choose the optional extra bed you will receive up to 4 further usage variants

Additional bed. The additional bed is attached under the rear lifting bed, it can be removed flexibly, and the divided slatted frame enables an individual use.

A. Couch option. The rear slatted frame can easily be folded up. That way, you will receive a couch with a unique view.

B. Longitudinal double bed as an option. In layouts with a rear lifting bed the lower additional bed can also be used as a spacious double bed with longitudinal sleeping areas in minimum storage space.

C. Transverse double bed as an option. Two additional sleeping areas and use of storage space up to a bicycle and other luggage.

D. Transverse single bed as an option. One additional sleeping area and use of storage space up to two bicycles and other luggage.

STANDARD EQUIPMENT

Starting with 2 sleeping places. You can raise and lower the double rear lifting bed to your individually selectable sleeping height. The available storage space in the rear is determined by the position of the lifting bed.

Travelling with maximum storage space. The diesel-powered heater and 2.7 kg gas cylinder bracket are located under the dinette seating section. This way almost the entire vehicle width can be used as flexible storage space.

OPTIONAL FEATURES

For cosy evening hours. Move the rear lifting bed to its topmost position and simply fold up the rear slatted frame of the additional bed in order to use the couch.

Additional bed variants. The additional bed can be used as a single or double transverse bed in layouts with rear lifting beds. In layouts with a rear lifting bed lengthwise as double bed in longitudinal and transverse direction or as a single bed in transverse direction.

In summer 2021, the FIAT base vehicle will be replaced from the DUCATO 7 to the DUCATO 8. Unfortunately, it is not possible for organisational reasons to print the photos of the update at a later date. Therefore, please note that some illustrations of the DUCATO do not correspond to the current (new) series status.

All set for adventure. With the BOXLIFE 540 MQ, Lisa and Alexander can up and do whatever takes their fancy. The Vario rear has plenty of space for their stand-up paddles and they can easily get to the nicest places thanks to the manoeuvrable 5.41-metre external length.

1. Maximum variability. Even in the most compact BOXLIFE layout you still enjoy a great sense of space. How does it work? With multifunctional solutions that define the entire interior.

2. Maximum storage space. There is plenty of room for luggage above the driver's cab and dinette. The especially quiet soft-close doors ensure everything stays in place while you are on the road.

BOXLIFE 540 MQ

KITCHEN OVERVIEW

540 MQ Compact kitchen

New freedom of choice.

The fun of barbecuing or fresh crudités from the farmers' market? There is plenty of room for all things delicious in the spacious kitchen cupboards. So you can decide what to plate up as the mood takes you.

- 1. Rinsing & Cooking.** The high-quality sink is seamlessly integrated into the worktop for durable quality. The two-burner hob provides additional safe storage space when not in use thanks to the hinged glass cover.
- 2. Worktop extension.** Get extra space for preparation in one simple action.
- 3. CUV compressor refrigerator with double opening.** Can be opened from both sides for easy access to your chilled food.

BED & BATHROOM OVERVIEW

TRANSVERSE LIFTING BED BOXLIFE 540 MQ

Best view for relaxing nights. That is freedom that inspires! Simply open the rear doors and enjoy the view. Depending on how much storage space they need, Lisa and Alexander can vary the height of the rear lifting bed to suit themselves.

1. Compact bathroom. Every centimetre is put to best use here with the moveable mirror and rotating toilet. In spite of the compact dimensions, you still enjoy a great sense of space and plenty of room to move.

2. Practical shelves. Integrated into the side wall and with a metal edge to prevent objects falling out.

3. Dry cloths. The laundry rail can be easily folded in and out.

BOXLIFE 6000

Active holidays can be this relaxing.

The innovative Vario rear concept facilitates multifunctional use as storage and living space at the same time. Ideal for Lisa and Alexander, when he's already recovering from paragliding and she's just back from mountain biking.

The optional panoramic window CUV (bow) allows for a light-flooded living space

1. Swivel TV bracket. Watch TV from the comfort of the dinette or even your bed.

2. Rotating table extension. The floating dinette table offers maximum legroom as well as plenty of extra space for eating, working, planning your trips or whatever takes up the most space when you are on holidays.

The headrests in the dinette can be individually adjusted - for maximum comfort & safety during the journey and afterwards

The ISOFIX system for 2 child seats on the bench comes as standard

Cook with ease. Thanks to the diesel heater, the gas supply in the BOXLIFE is only required for the gas cooker. Therefore, less is needed. This saves on weight, which means that Lisa and Alexander can bring along more of their sporting equipment.

- 1. Upper compartments.** Close quietly thanks to the soft-close feature.
- 2. Drawers with full extension.** Can be pulled out completely for especially convenient access.
- 3. Sink cover.** We don't waste any space. When the sink is not in use, a custom-fit cover in the same décor as the worktop provides additional storage space or room for preparation.

KITCHEN OVERVIEW

- 600 MQ Galley kitchen
- 600 DQ Galley kitchen
- 600 ME Compact kitchen

Clean up outdoors. The shower head extends particularly far. So far, indeed, that Lisa can get her cycling shoes gleaming again after enjoying the great outdoors.

- 1. Bi-functional washbasin.** The compact, space-saving, hand basin in the open bathroom can be converted into an extra-large washbasin in just one move.
- 2. Sophisticated solutions.** There are plenty of compartments for your storage needs. A folding laundry rail for damp hand towels.

For more information on the optional open bath, see page 107

A family's best friend. With its variable concept, the BOXLIFE 630 ME is perfectly suited for relaxed family holidays. There is a favourite spot for everyone here and enough storage space for all of the luggage needed when travelling.

- 1. Lots of light and even more storage space.** The large Midi-Heki ensures a bright ambience with plenty of natural light. The shelves and storage units above the driver's cab and dinette provide lots of extra storage space.
- 2. Storage space in the floor.** The extra compartment is particularly handy for shoes and the like.

For individual extra comfort, the dinette can optionally be equipped with adjustable single seats

The standard diesel heater is located here. Find out more about its advantages on page 97

KITCHEN OVERVIEW

630 ME Galley kitchen

BOXLIFE 630 ME

Everyone will eat happily here. After all, the fully equipped kitchen has plenty of space for storage, preparation and, of course, enjoyment. Turn even a short break while en route into a treat for all the family.

BOXLIFE 630 ME 1

BOXLIFE 630 ME 2

BOXLIFE 630 ME 3

- 1. Everything in its place.** Thanks to the slide guards, nothing comes your way when opening the wall units.
- 2. Securely stowed.** The large drawers with full extension can be safely locked during travel.
- 3. Large refrigerator.** With an optional 150-litre volume, 30-litre freezer compartment and whisper-quiet night time noise reduction system, the CUV compressor refrigerator offers constant cooling and ensures a relaxing night's sleep.

BED & BATHROOM OVERVIEW

630 ME with compact bathroom*

*Optional open bathroom
To find more details on our front lifting beds, please see **pages 102-103** and **pages 106-107** for our bathrooms.

More options for even more space. The Williams family enjoys the optional open bathroom, which offers even more space thanks to the separate shower cabin and also ensures that the rear longitudinal beds in the BOXLIFE 630 ME are up to 80 mm longer.

- 1. Open bathroom.** The bathroom can be efficiently organised by moving the shower cabin into the passage.
- 2. Stowing and drying.** There are numerous shelves for storage, while the folding laundry rail gives you a place for hand towels.
- 3. Outside shower.** Especially handy for outdoor enthusiasts: the water connection at the rear is ready to use in a few quick actions.

BOXDRIVE 680

At home, always and everywhere.

Thanks to the symbiosis of sophisticated functionality and maximum living comfort, the BOXDRIVE is ready for all adventures. No matter whether Miriam and Paul want to conquer the city, explore nature or spend the evening at home in atmospheric ambient lighting.

1. Let me entertain you. The optional 21.5" SMART TV offers the best entertainment and video-on-demand.

2. Especially wide sliding door. The sliding door allows you to open up the living area to nature. You can store everything in the practical storage compartment that you will require on your way outside, such as an umbrella or a shopping bag.

BOXDRIVE 680 ME

Precious storage space in abundance. In the BOXDRIVE 680 ME, the kitchen is also particularly generous and luxurious. Thanks to full-extension drawers with ball bearings, Miriam can use all the space perfectly and down to the last millimetre.

- 1. Floating dinette table.** Instead of a bothersome table leg, you can stretch out your own legs and smile about the unobstructed access.
- 2. Refrigerator with sleep mode.** The 90-litre compressor refrigerator does not just offer lots of room, but also an optimised sleep mode with reduced operating noises.
- 3. Extension of dinette seating bench.** The standard side pull-out and the three-level lounge function are part of the standard equipment and can also be used while driving.

Attractive design. Between the bathroom and the bed is a floor-to-ceiling wardrobe with enough space for Miriam and Paul's favourite clothes which should never be missing on a trip. The overhead cupboards also offer further storage space.

1. Innovative folding washbasin. The spacious in-room bath is equipped with a retractable washbasin that – in a pulled-out version – has dimensions of up to 650 x 300 mm.

2. Dream becomes space. The longitudinal beds are also optionally available as lifting beds. This gives you additional, flexible storage space for large luggage, bicycles, e-bikes or other sports equipment under the two comfortable beds. The on-board technology is also located in the rear.

BEST TECHNOLOGY FOR THE MOST BEAUTIFUL TIME OF THE YEAR

Optimally constructed for 100% wanderlust. With our CUVs you always arrive better, ensured by intelligent constructions, numerous innovations and practical features. The sum of all parts results in unlimited holiday happiness.

The optional rear view camera is perfectly integrated into the rear panel and offers you perfect visibility to the rear

Comfort Next Level: The electric soft-close sliding door closes almost by itself. In an emergency, it can also be operated manually

You can find more information about KNAUS CUV competence online at knaus.com/kompetenz

NEW

NEW

1. CUV POP-UP ROOF IN UNIQUE LFI-CONSTRUCTION^{2,3}

Compared to a conventional GRP construction, LFI offers optimum insulation values, maximum stability and extremely precise weight specifications, as the entire roof is manufactured as one part. The aerodynamic shape benefits the handling and, together with an extension of the frame into the rear area, ensures harmonious lines. Inside, the pop-up roof impresses with a huge bed surface of 200 x 135 cm and numerous well thought-out features.

2. PERFECTLY DESIGNED HIGH-ROOF²

The additional GRP roof structure in our BOXSTAR XL high-roof models ensures an incredible interior height of up to 238 cm. Thanks to the optimal insulation levels achieved through the special double-shell structure, the indoor climate throughout the vehicle, and especially in the high-roof bed, is always pleasant at both high and low temperatures. The high-roof's aerodynamic shape fits harmoniously into the overall look. Elevated side strips with integrated rain gutters ensure optimal drainage of rainwater and slush. The extra recesses for the roof structure improve the vehicle's stability and handling.

3. THE PANORAMIC WINDOW CUV (BOW) & SpaceRoof^{2,3}

In H2 layouts, the optional panoramic window CUV (bow) ensures a particularly light-flooded living space. In addition, it can be opened to the outside for an optimal indoor climate. The insect screen keeps annoying mosquitoes safely out, and the blackout pleated blind can be used to darken the interior for a good night's sleep. For extra room height and particularly convenient access to the driver and passenger seats, the H2 layouts are alternatively available with the optional SpaceRoof roof extension.

4. SCREEN DOOR¹ & STEP³

It boils down to the details. Such as, for example, the standard fly screen door or the electric step, which automatically retracts if forgotten before driving off. And we also install a manual closing aid to make it easier to close the large sliding door.

5. BICYCLE RACK³

Tailor-made bicycle rack systems allow you to safely transport your bicycles. In our BOXSTAR models, the rack system is mounted to the rear door and can be simply folded away when not in use. The doors can also be opened with bikes loaded on the rack. Thanks to the Vario rear concept, our BOXLIFE models can be upgraded with the unique Thule VeloSlide. For more details, check out page 118.

¹Across all series ²Dependent on model ³Optional

Everyday life, leisure or holiday? The CUV generation can do it all. Enjoy today to the maximum and start the next day feeling refreshed. That's not possible? Sure it is! With our manoeuvrable and well-equipped CUVs, you always enjoy five-star comfort with all the benefits of home. From the windows to the mattresses, we always aim for the highest material quality and well thought-out details and solutions.

Bodyguard for crockery & glassware with silmyREADY, magnetic glasses & tableware stay safe even while driving. Find out how the slip- & rattle-free system works on page 119.

As standard, comfortable 2-layer cold foam mattresses ensure a restful night's sleep. For those who like it even more luxurious, the optional EvoPore HRC mattresses including WaterGel layer can be chosen

You can now continue to stream your favourite series & films even while on holiday. With the new optional SMART TVs incl. HD tuner in the living & sleeping area, you have a wide range of options at your disposal

1. FIRST AID MEDIKIT¹

Heartburn, headaches, allergies: Things you hardly ever need - especially when you are travelling. To ensure that you are well prepared for the worst case scenario, every KNAUS vehicle is accompanied by a MediKit voucher* with which you can conveniently redeem the practical first-aid kit with our shipping partner* online.

2. LARGE ROOF VENTS¹

Large roof vents in all of our CUVs ensure a pleasant living area with plenty of natural light. As standard, we install a 700 x 500 mm Midi-Heki in the front and a 400 x 400 mm, clear roof hatch² in the rear, which can also be optionally designed as a 700 x 500 mm Heki². A third roof hood^{2,3} with 400 x 400 mm in the middle of the vehicle is also available as an option. In our BOXSTAR XL high-roof models, the optional panoramic roof in the high-roof and a hinged window in the rear bring extra light into the interior.

3. FRAMED WINDOWS WITH COMFORT ROLLER BLINDS¹

Our CUVs are all equipped with SEITZ S7P frame windows, also in the bathroom. These provide the windows with cold-conduction-free insulation, which can be darkened in a particularly easy and opaque way thanks to a special comfort roller blind system. The blinds are integrated in the dinette area and by the longitudinal beds behind a front wall panel. For lasting value preservation, we also seal the cut edges on all openings with corrosion protection. On request, the frame windows in the rear doors can be made larger for even more light and air.^{2,3}

4. WELL THOUGHT-OUT DINETTE¹

We pay attention to every detail so that you still feel comfortable sitting here even after many hours. The floating dinette table offers unimpeded access and plenty of extra legroom. It can also be simply swivelled out to make it bigger. The seating group impresses with ergonomic cushions and adjustable seats. This means that the bench can be extended into the corridor with just one action and can also be used while travelling. The backrest inclination can be adjusted to suit any posture.

5. OPTIMUM INSULATION¹

All parts of our CUVs are insulated with innovative materials in a multi-stage process, with closed-cell polyethylene foam used in the ceiling and side walls. This prevents the formation of cavities in which water can collect. On the inside, the textile, soft-touch wall covering ensures a pleasant indoor environment and an especially homely atmosphere.

6. ON-ROOF AIR CONDITIONING³

In tropical temperatures, our optional air conditioning systems ensure a pleasant cooling of the interior. They also have a heating function and can dehumidify the air in the room. The Dometic Freshjet 2000 (OEM) on-roof air conditioner ensures efficient air distribution in different directions thanks to individually adjustable airflow, and can be conveniently controlled by remote control.

¹Across all series ²Dependent on model ³Optional

* A voucher to redeem the medicine set is enclosed with the vehicle. The medicine set contains medicines that must be purchased from a pharmacy. The voucher can therefore only be redeemed at the responsible MediKit mail-order pharmacy at www.medikit.shop. You can also obtain further information about your MediKit at www.medikit.shop.

We don't build castles in the sky, but furniture that creates a good indoor environment. The demands placed on the furniture in our CUVs are incredibly high. An appealing design and lots of storage space are not enough. Durability, smart designs and technology that fascinates for a lifetime – those are our standards.

OPTIMAL INDOOR CLIMATE

One thing always comes as standard in our CUVs: A genuinely pleasing atmosphere. As simple as that sounds, there is a great deal of work behind it.

Soft-touch wall covering:

We use open-pore soft-touch moulded parts or foam-lined stretch fabric in sleeping and seating areas in all of our CUVs. Such soft surfaces don't just feel warmer and more pleasant compared to typical hard plastic panelling, they also prevent condensation from gathering on the surface.

Insulation & furniture attachment:

Our designers aim to create the perfect environment in a compact space when building our CUVs. This is why we use innovative solutions in fitting furniture and insulation that is resistant to rot.

1. FULL CARCASS FURNITURE & DOWEL TECHNOLOGY¹

The pieces of furniture installed in our CUVs have a solid rear wall, giving them a particularly stable structure. They are not, as is often the case, fixed flush to the vehicle bodywork without a back wall, a practice which promotes the formation of condensation. Instead, they form an independent unit in themselves. They fit perfectly into the overall scheme of the vehicle, being torsion-resistant, solid, and stable, whilst also ensuring perfect quality even after many years of service. Our furniture is joined using a sophisticated dowelling method as standard. This allows us to achieve a very precise fit and considerably more stable structure so that your furniture will continue to serve you well, year after year.

2. STABLE SOFT-CLOSE FULL-EXTENSION SLIDES¹

Due to the full-extension slide, the ball-bearing mounted drawers from GRASS, a leading supplier, slide out so far that they can be filled or emptied easily right to the very back of the drawer. They are precisely guided and close gently.

3. SCRATCH-RESISTANT HPL SURFACES²

High pressure laminates and continuous pressure laminates are laminates that are specifically used for heavy loads such as in kitchens. The multi-layer construction is produced under extremely high pressure, then sealed with an exceptionally robust surface layer. This makes our work areas and tabletops (always HPL) particularly scratch-resistant.

4. ADJUSTABLE SOFT-CLOSE DOORS¹

The cupboard doors are fitted with quality soft-close hinges so that they always close quietly, regardless of how much force was used to close them. This is for the entire life of the vehicle, and probably beyond. If a door doesn't do what it really should, then the hinge can be easily adjusted if necessary.

5. FLOATING DINETTE TABLE¹

Our CUVs are all equipped with unimpeded dinette access. With no obtrusive table legs, you enjoy all of the legroom. Thanks to the highly stable yet invisible screw connection to the outer wall, the dinette table is naturally just as robust as a conventional table with a supporting leg. A swivel-mounted table extension offers additional storage space in one quick action when you need it and efficient use of space when you don't.

¹Across all series ²Dependent on model

With this technology, you are perfectly prepared for every season all over the world. You cannot see it, but it feels really good. With our sophisticated supply system, you have the peace of mind of knowing that you will still have running water even in cold temperatures and will never have to sit with cold feet in the dinette.

The optional GPS tracking system from Velocate offers perfect anti-theft protection. For more details, check out page 118

1. OPTIMUM WATER SUPPLY¹

With a fresh water tank that can hold up to 110 litres, our CUVs allow you to travel self-sufficiently for even several days at a time. The bluuwater water filter ensures a supply of perfectly hygienic water, even in risky regions. When temperatures dip, warm air circulation prevents the water freezing.

2. WELL THOUGHT-OUT GAS SUPPLY¹

The diesel heater included as standard in our BOXDRIVE and BOXLIFE models ensures that gas consumption is kept to a minimum. (2a) A 2.7 kg gas bottle is perfectly sufficient for a reliable gas supply to the gas cooker and can be positioned directly next to the fresh water tank to save on space. (2b) In our BOXSTAR models, the heater is operated the conventional way with gas. We have therefore left enough space for up to two 11 kg gas bottles. The gas bottle locker can be securely locked.

3. EMPTYING THE TOILET FROM OUTSIDE²

The toilet cassette is accessed via the sidewall door making it easy to empty.

4. INNOVATIVE HEATING SYSTEM¹

For optimum heat distribution, we consider all components in the heating and installation system during the design phase. This results in the well thought-out overall design of our CUVs, which offers many other benefits in addition to perfected heat distribution. For example, the special positioning of the heating system gives the vehicle a lower centre of gravity, which improves its stability. Furthermore, this saves on space in the rear in particular, which means you have additional storage space at your disposal. The optional underfloor heating³ extends from the dinette platform to the passage to the bed area.

5. FLOOR STRUCTURE² & TEMPERATURE-CONTROLLED DINETTE PLATFORM¹

We manufacture the base plate, which is perfectly adapted to the body shape, in a sandwich design. In addition to an added insulation effect, this gives our CUVs a maximised interior standing height. We also install an intermediate floor in the dinette, which ensures pleasantly warm feet thanks to temperature control.

6. HEAD-UP DISPLAY^{2,3} & NAVIGATION SYSTEM³

The head-up display uses a transparent screen to project all key data, such as navigation and speed as well as traffic-sign recognition information, into the driver's field of vision. Drivers don't have to take their eyes off the road unnecessarily and can focus better on what is going on around them. To make your journey even more stress-free and entertaining at the same time, in the BOXSTAR and BOXLIFE models the new Pioneer navigation system with higher contrast 9" multi-touch display, improved viewing angle and 24bit colour depth offers everything you need for short and long journeys. Compatible with Wireless Apple Carplay & Wireless Android Auto, including promobil parking space radar and connection to the head-up Display for navigation display. For the BOXDRIVE, you can optionally obtain the MAN Media VAN business navigation system including touchscreen with proximity sensor technology. Both systems are equipped with Bluetooth and numerous other multimedia features.

¹Across all series ²Dependent on model ³Optional

Positioned to save space the heater in the CUV is always located under the dinette bench

If a CUV is to offer comfort like at home, this requires some supply technology. This is arranged in all KNAUS CUVs so that it is laid frost-protected with the heating system. And of course we also make sure that the connections to the individual elements are particularly easy to reach.

Thanks to the charging booster, leisure batteries can be charged especially quickly and efficiently while the engine is running

NEW

Top performer: The new, optionally available lithium-ion batteries are our recommendation for all intensive users, comfort lovers & self-sufficiency fans who need more reserves for even longer standing times.

YOUR CHOICE: AGM BATTERY OR LITHIUM-ION BATTERY?

AGM surface-mounted batteries are a further development of the gel battery, can also cope with somewhat higher currents and score with a short absorption time.

- Proven AGM battery technology with an economic cost-benefit ratio from the first ampere-hour (Ah) onwards
- Cycle-resistant and maintenance-free, cold-resistant
- Easy & uncomplicated replacement
- Ideal for weekend and annual holiday campers as well as globetrotters who only use consumers (hairdryer, TV) temporarily

The new lithium-ion batteries convince with high capacity and fast, uncomplicated charging characteristics.

- Weight saving of up to 50% compared to AGM surface-mounted battery
- Faster current consumption and use of the full nominal capacity without a drop in performance, independent of the current intensity
- Longer service life, significantly better quick-charging behaviour
- Ideal for travellers who are often self-sufficient and/or have a higher demand in power

bluuWater **NEW**

Highly efficient ultrafiltration membrane removes smallest particles, germs & bacteria 99.999 % from the piping system

THE NEW bluuwater WASSERFILTER

Hygienically perfect water at every destination. The new bluuwater water filter removes germs, bacteria and ultrafine particles almost completely (99.999 %) from the pipe system of all Knaus Tabbert vehicles (in series). The replaceable filter cartridge with highly efficient ultrafiltration membrane is mounted vertically or horizontally between the water tank and the pipe system. It has a filter capacity of up to 8,000 litres - and, thanks to a Timestrip indicator in the vehicle the remaining usage

time can be checked at any time. The bluuwater cartridge needs to be replaced after six months at the latest, depending on use. Thanks to the click-and-ready quick coupling system, it can be replaced easily and drip-proof.

- Highly efficient ultrafiltration membrane removes ultrafine particles, germs & bacteria up to 99.999 % from the supply system
- Filter capacity: 8,000 l
- Easy replacement thanks to click-and-ready quick coupling system

KITCHEN VARIANTS TO SUIT YOUR TASTE

The kitchen is the heart of your home? Then you will be thrilled by the two kitchen variants in our CUV! A large refrigerator, the practical worktop extension and a 2-burner cooker with glass cover come as standard and offer the best conditions for maximum holiday enjoyment.

In some layouts even huge 150-litre compressor refrigerators with 30-litre freezer compartment are optionally available

The optional, multifunctional KNAUS bag has a fixed place at the side of the kitchen block

The high-quality stainless steel sink is set into the worktop and can be transformed into a counter top with a matching cover

COMPACT KITCHEN

- 1. Integrated refrigerator.** The CUV compressor refrigerator is fitted at the bottom of the kitchenette and can hold up to 70 litres.
- 2. Efficient use of space.** Thanks to the well thought-out arrangement, there is still space between the kitchenette and sleeping area for a wardrobe with hanging rail.

Layouts: BOXSTAR 540 ROAD, 600 LIFETIME & LIFETIME XL, BOXLIFE 540 MQ, 600 ME, BOXDRIVE 600 XL

GALLEY KITCHEN

- 1. 95 litre volume.** That's what you get with the refrigerator installed on top, including whisper-quiet night time noise reduction system.
- 2. Everything's covered.** The stainless steel sink can be covered with a special insert & used as additional workspace. The corner shelves provide practical space for spices.

Layouts: BOXSTAR 600 STREET & STREET XL, SOLUTION, FAMILY, 630 FREEWAY, BOXLIFE 600 DQ, MQ, 630 ME, BOXDRIVE 680 ME

Flexible sleeping places for restful nights.

For everyone who needs an additional separate sleeping area, our front lifting beds are the solution. Whichever variant you choose, you can always rely on especially simple handling and maximum sleeping comfort.

Single or double bed? The Vario front lifting bed always offers just as much space as you need at the time

CLASSIC FRONT LIFTING BED

- 1. Sleeping comfort.** Enjoy a comfortable rest on two cold foam mattresses with headroom of 50 cm. The Classic lifting bed can be easily pulled down manually by the handle and pushed back up again. Optimum safety in daytime mode is ensured by click fasteners permanently installed on the ceiling and high-strength safety belts.
- 2. Comfortable height.** In daytime mode, when the Classic lifting bed is not lowered, you have a comfortable standing height here.
- 3. Protection against falls.** The classic front lifting bed is also suitable for children thanks to the special safety net. When not needed, it can be removed using the click fastener.

Standard: **BOXSTAR 600 SOLUTION**, **BOXLIFE 600 DQ**

Optional extra: **BOXSTAR 630 FREEWAY**, **BOXLIFE 630 ME**

VARIO FRONT LIFTING BED

- 1. Room above and to the side.** The Vario front lifting bed with headroom of 100 cm and side extension offers maximum variability and premium sleeping comfort.
- 2. Electric motor.** An electric motor is also available as an option for even greater ease of use.
- 3. Standing height.** When the lifting bed is not needed, you enjoy a comfortable standing height in the kitchen area.

Optional extra: **BOXSTAR 600 SOLUTION**, **BOXLIFE 600 DQ**, **BOXSTAR 630 FREEWAY**, **BOXLIFE 630 ME**

For all those who want to reach for the sky. With the unique CUV pop-up roof, you can turn your CUV into a two-storey comfort zone in no time at all. The entire roof is manufactured as a complete part using the latest LFI technology. This means it offers optimum insulation values and maximum stability. With a huge bed surface of 200 x 135 cm, there is room for two people in comfort. Standard warm air vents, convertible function and numerous features guarantee the best sleeping comfort.

Only KNAUS offers this! Instead of conventional GRP production, we rely on the latest LFI technology and an aerodynamic shape for best handling & highest stability

The roof hood in the front is standard equipment. Optionally you can get a 2nd roof hood in the rear or an on-roof air conditioner

You can find even more information about the optional pop-up roof online at: www.knaus.com/cuv

Spectacular view thanks to convertible function with mosquito net

POP-UP ROOF BED BOXSTAR 600 STREET 2

The RGB ambient lighting creates a cosy atmosphere

200 x 135 cm

POP-UP ROOF BED

1. Convertible function. The front side can be opened and folded away easily from the inside. This gives you a unique view. A mosquito net and black-out system provide privacy and optimal insect protection.

2. Highest sleeping comfort. The 2-layer cold foam mattresses offer pleasant lying comfort. The closed lower shell and standard warm air outlets ensure an optimum room climate.

3. Well designed details. USB socket, induction charger, reading lamps, bottle holder and storage compartments are conveniently arranged. And thanks to the fall-out protection, you as a family with children can enjoy a safe night's rest.

4. Great feeling of space. In the living room you always enjoy the complete headroom of 190 cm.

Optionally available: BOXSTAR 540 ROAD, 600 STREET, 600 FAMILY, 600 LIFETIME, BOXLIFE 540 MQ, 600 MQ, 600 ME

Bathrooms with a convenience-factor. Having your own wellness oasis with you at all times is a real plus for those who don't know today where their love of travel will take them tomorrow. With our BOXSTAR and BOXLIFE models, you can choose between the standard compact bath & the optional open bath. The BOXDRIVE impresses with a multifunctional swivel bath as standard, and with an open bathroom as an option.

COMPACT BATH

The homogeneous room layout integrates perfectly into the overall layout. Here, the passage to the rear bed is used exclusively as such by the separate bathroom area. The swivelling toilet offers optimum legroom and the patented shower curtain always keeps its distance thanks to the special air chamber ring. The mirror can be easily moved to the left and right. In this way, it serves either as a splash and fall-out protection for the closet or as a privacy screen in front of the window.

OPEN BATH

Here, the bathroom area is extended into the hallway for more room to move. You can see the effects of this in detail in the info box on the right. With a few simple steps, a particularly large shower cubicle is created, including four drains. When turned halfway, the cubicle also serves as a room divider. Thanks to the folding function, the compact washbasin can be transformed into a large washbasin in no time, as you can see on page 71.

SWIVEL BATH NEW

Turn 2 into 1: the swivel bath offers a spacious shower cubicle or a generous washing area, depending on your needs

As a separate room, the swivel bath offers a clear demarcation from the other living areas. This creates a particularly clear, well-structured overall picture. With the most efficient use of space, the practical swivel bath combines two different areas of use. On one side is the washbasin, which can be swivelled over the toilet. This creates a homogeneous shower area with smooth walls on the other side with a flick of the wrist. The wall unit above the toilet offers sufficient space for the various cosmetic articles. The shower shelves are integrated into the side wall and can thus be fully used in both shower and wash modes.

OPEN BATHROOM FURNITURE VARIANTS

If you decide on a vehicle with open bath, you not only get a spacious shower cabin, but also benefit in other ways. After all, the bathroom as a whole can be narrowed by extending it into the passage, which impacts nearby furniture modules depending on the layout.

SPECIAL FEATURES BOXSTAR & BOXLIFE

Layouts with a transverse bed

BOXSTAR 540 ROAD, BOXLIFE 540 MQ

Selecting the open bathroom here means that the rear transverse bed, ceiling-mounted locker and storage compartments are all around 90 mm wider.

BOXSTAR 600 STREET, 600 STREET XL, BOXLIFE 600 MQ

The additional space is used here for a full-length wardrobe installed between the bed and bathroom and offering additional storage space.

Layouts with single beds

BOXSTAR 600 LIFETIME, 600 LIFETIME XL, 630 FREEWAY, BOXLIFE 600 ME, 630 ME

The rear single bed extends here on the driver's side; the ceiling-mounted locker and storage compartments are larger.

100 % KNAUS 100 % INDIVIDUAL

Design your CUV your way. Our CUV becomes yours with the numerous décor packages and upholstery variants. And the one thing you can be sure of is premium KNAUS quality and optimum comfort.

Pleasant seating comfort is not an option but part of the standard equipment. Whatever upholstery you opt for, you can always rely on one thing: **comfortable seats** that have been optimised for the respective model are included as **standard in all KNAUS CUVs**. That is why we use **ergonomic seat cushions that help you to maintain a healthy posture**. For that **extra bit of comfort**, the dinette can also be equipped with **adjustable individual seats as an option**.

The seat cushions support the natural S shape of your spine. So that you start your holiday in a relaxed mood and avoid back ache

OUR SUPPLIERS & PARTNERS

With the products of our strong and reliable partner companies, every KNAUS motorhome becomes still a little better. We only work with hand-picked professionals and jointly develop tailor-made solutions for our leisure vehicles and your travel happiness so that you can also rely on the highest quality standards.

STRONG PARTNERS & FEATURES

- bluuwater water filter**¹. Our partner for hygienic fresh water supply. The high-performance filter system from bluuwater has been specially developed for the requirements of our leisure vehicles. **More information can be found from page 98.**
- Velocate GPS-Tracker**². Velocate's innovative GPS tracking system ensures optimum theft protection thanks to intuitive app control with silent alarm mode and a stand-alone mileage of up to 3 months without power connection.
- Pioneer head-up display**^{2,3}. The head-up display ensures even greater comfort and safety while travelling. All key data, such as navigation and speed, are projected into the driver's field of vision via a transparent screen. **For more details, check out page 97.**
- GA-Actuation e.hit integrated rear carrier**³. Electrically extendable, with sufficiently high carrying capacity and combined with a detachable trailer coupling, this rear carrier is extremely practical. The e.hit is ready to travel in just a few steps: At the touch of a button, two swivel arms extend. As soon as the accessory base with retractable LED taillights is pushed onto them, there is an immediate connection of the electrics to the motorhome.
- Pioneer navigation system**^{2,3}. The intuitively operated Pioneer AVIC presents itself more clearly and with greater contrast. The multifunctional unit is compatible with Wireless Apple CarPlay & Wireless Android Auto. If you are navigating with your smartphone, the route instructions can even be projected onto the head-up display.
- ten Haaft satellite systems**³. Enjoying TV in KNAUS vehicles is even more convenient and user-friendly thanks to the optional ten Haaft satellite systems. Depending on the model, the Oyster 60 Premium and Oyster 80 Premium systems offer clear TV reception, technical highlights such as smartphone app control and much more.

In summer 2021, the FIAT base vehicle will be replaced from the DUCATO 7 to the DUCATO 8. Unfortunately, it is not possible for organisational reasons to print the photos of the update at a later date. Therefore, please note that some illustrations of the DUCATO do not correspond to the current (new) series status.

Errors and misprints are reserved. The information on the delivery contents, measurements and weights as well as the appearance correspond to the knowledge at the time of printing (08/2021). We reserve the right to make changes on equipment, technical data, serial equipment and prices. After a contract has been concluded, we reserve the right to make technical changes within the framework of the construction insofar as they serve technical progress and are acceptable for the customer. Minor colour and texture deviations are also reserved - even after conclusion of the contract - insofar as these cannot be avoided due to the material (e.g. colour deviations of up to approx. 2.0 dE between paint on sheet metal and paint on GRP/plastic) and are reasonable for the customer. Some illustrations show equipment features which are not included in the serial equipment and/or which can be ordered at extra cost (optional extras), and in some cases also equipment features of prototypes/studies/country variants which do not correspond to the serial status and which cannot be ordered as optional extras. Minor colour deviations between the illustrations in the brochure and the actual vehicle cannot be completely excluded due to printing processes. Therefore, before purchasing a vehicle, please seek comprehensive advice on the current status of the series from an authorised KNAUS dealer. The decoration shown in the catalogue is not part of the equipment supplied. Please also note the comments in the current price list, in particular on weights, payload options and tolerances. Reprinting, even in extracts, is only permitted with the prior written permission of Knaus Tabbert AG.

Knaus Tabbert AG . Helmut-Knaus-Straße 1 . 94118 Jandelsbrunn . Germany
